To whom it may concern.

I wanted to express my, and New-Atlantic's, appreciation to your company for the outstanding job that Doug Gilson has done on the Harrill Hall project here at WCU. The abatement work got off to a fairly slow start the first couple of weeks and the demolition sub was about to catch up. Doug came on board and within a week he had jumped out far enough where no delays were possible. I think a large part of his success is that he respects his workers and cares for their safety. They in turn appreciate this and perform at a higher level for him. Also contributing to his success is his systematic, assembly line approach to performing the work. This keeps the other subcontractors, inspectors, and CCI folks in a rhythm that fosters production. Even when encountering unforeseen conditions Doug never missed a beat or lost his positive attitude. I have worked with numerous abatement companies over the last 20 years and Doug has definitely put CCI at the top of my list. I have passed this assessment on to my estimators and project managers and we will pursue CCI aggressively for future work/bids. Thank you for a job well done. If you have any questions please call me at 919-524-4792.

Thanks,
