Re: "Letter of Recommendation" for Contaminant Control Inc.

To Whom It May Concern:

My name is D. Randy Phillips and I am an Environmental Administrative Engineer for Owens-Brockway Glass Container Inc. located in Perrysburg, OH. I have been working for Owens-Brockway for 31 years and have been intimately involved in the management of asbestos abatement projects for my company for the last 10 years. I am writing this letter in support of the work performed by Contaminant Control Inc. (CCI) for our company. CCI, in my opinion, is by far, the most competent asbestos abatement contractor that I have ever had the occasion to work with. Under the corporate management of Al Bustin and field management of Jerry Wisham, CCI has time and time again showed us an extremely high level of excellence and professionalism unmatched by anyone else. CCI has completed numerous asbestos abatement projects at our glass facilities located in Georgia, North Carolina and Virginia. All of these projects were completed on time and within budget. The projects were all completed in a highly professional manner, with no issues or concerns.

Please feel free to contact me at your convenience and I would be glad to give you any further details on my experiences with Contaminant Control Inc. My cell number is (419) 509-9078 and my office number is (567) 338-7543.

Sincerely,

D. Randy Phillips  
Environmental Administrative Engineer  
Owens-Brockway Glass Container Inc.
